—The second number of the lecture course was given on Monday evening. The lecture was by Rev. J. F. Nugent, of Des Moines, Iowa. His subject was: "The Philosophy of Civilization." Father Nugent is a natural and graceful orator and a profound scholar and thinker. His lecture was a thorough, lucid and fascinating presentation of the principles underlying the various civilizations of the past and the elements of difference between them and the present Christian system. The speaker held that the elements of decay inherent in all ancient systems was excluded from ours to the degree that ours was truly Christian, and that while the ancients worshipped the love of philosophy, our Christianity teaches the philosophy of love which leads to the eternal life both of nations and men. The lecture was grand and replete with eloquence and elegant diction. Father Nugent deserves to be classed as one of the leading orators of the West.

—Pearl, daughter of John R. Elder, of Verden, Okla., died at the home of her sister, Mrs. Foster, near Curzon, on Thursday, Nov. 12, 1903, from consumption. Obituary next week.

—Father Neegenbaum, of St. Joseph, was here this week, visiting his daughter, Mrs. Mina Curry and enjoying the Mum show. Although new in his 85th year he enjoys the best of health and is able to read his daily without the use of glasses. May his days be yet long and many, for the world has been bettered by his having lived in it.

—William McDermott now knows the force of the buzz saw. While at work at Forest City as feeder for the circular wood saw, on Tuesday of this week, Nov. 10, 1903, he lost one of his arms. In placing a stick of wood upon the frame by mistake he placed it to the side of the saw, which caused it to break, and in his effort to release the stick his right arm came in contact with the saw severing the bone leaving only a few tendons. Amputation of course was necessary, which was performed by Drs. Aiken and Chandler.

—A Farmers' Institute meeting will be held at Oregon, under the auspices of the State Board of Agriculture, on Tuesday, December 15, 1903, and at the same time and place a Corn Show will be held to select samples for the World's Fair in 1904. J. H. Meyer has been appointed by the County Court to look after this exhibit of corn for this show, and to arrange and label same properly. In accepting this work, Mr. Meyer requests that all samples of corn intended for this show be sent or brought to the Court House at Oregon, from the 10th to the 12th of December, 1903. Good Good prizes are offered. Bring the best you have, and everybody come and let us have a good Farmers' Institute. Good speakers will address the meeting. Everybody get interested and let our people have a good time.

—G. H. Price is now conducting the meat business in his own home, having purchased the interest of his partner, Charley Meyer. "Hamp" understands his business.

The Meeting of Congress.

The fifty-eighth congress met in extra session on Monday of this week, in accordance with the proclamation of the president. On Tuesday the president submitted his message, which was confined to recommending the necessary action to give effect to the reciprocity treaty with Cuba, already ratified by the senate. But while this will be the chief subject of consideration at the extra session it will not necessarily be the only one. There is likely, for instance, to be some attention given to the Panama situation. Mr. Cannon, of Illinois, was chosen speaker of the house; Mr. Williams, of Mississippi, will be the leader of the majority, while Mr. Hepburn, of Iowa, will be the floor leader for the majority.

Kathryn Parsons to Marry.

Mrs. Laura Parsons announces the engagement of her daughter Kathryn, to Dr. I. E. Ruhl, of Nodaway, Mo. The wedding will be celebrated about the first of the new year.

The above notice taken from the Kansas City Star, will be a pleasant surprise to a large circle of Miss Parsons' friends in Union Star. Miss Parsons, who until two years ago had lived in Union Star all her life, belongs to one of DeKalb county's most prominent families. She is a great granddaughter of General Monroe Parsons, a noted Southern general. Miss Parsons received her early education in the Union Star school. She was graduated from the Union Star High school in the class of 1901. During a year and a half of post-graduate work in the Central High School of Kansas City she stood very high in her classes. After her marriage she will continue her musical education with Mrs. Jennie L. Gaynor, of St. Joseph.

Dr. Ruhl is a very promising young physician. Graduated from the Central Medical College of St. Joseph in the class of 1902. During his few visits to

Union Star he has made numerous friends.

A number of entertainments are being planned in honor of the approaching marriage. —Union Star Herald.

The prospective groom is a Holt county boy, and son of John Ruhl, postmaster at New Point, and is one of the coming young physicians of this section of our state.

Liked the Wheelbarrows.

An enterprising firm shipped some wheelbarrows to Brazil, and some natives filled them full of stones and materials and carried them on their heads. They said wheelbarrows were capital contrivances and wondered how they had managed to get along so many years without them.

Java Coffee Getting Scarce.

Coffee culture in Java is on the wane, and it is not impossible that in the course of time it may be given up entirely. The reasons for this are the exhaustion of the soil and the competition of Brazilian coffee.

Bleed Fish Now See.

In a cave in Silesia a pool was filled with sightless fish. About a year ago the place was utilized as a store, when the electric light was installed. Since then many of the fish have actually developed normal-looking optics. Formerly, when the cave was pitch dark the eyes of the creatures were covered with a thick film.—Nature.

Pawnee Disappearing.

A remarkable instance of the rapid extinction of an Indian tribe is that of the Pawnees, who were removed to Oklahoma from Nebraska in 1876. At the time of their removal from Nebraska the tribe numbered 2,500 souls. To-day they are less than 500—the remarkable decrease being due principally to death. —Kansas City Journal.
